I. INTRODUCTION

A. Interest of the West Virginia College of Emergency Physicians

Primarily, the interests of West Virginia College of Emergency Physicians (WVACEP) have been directed toward emergency physicians. However, WVACEP has realized that improved training for individuals involved in all aspects of emergency patient management will: 1) enhance patient care 2) decrease pre-hospital and in-hospital morbidity and mortality from trauma and cardiac related problems and 3) improve overall communication between members of the emergency healthcare community.

WVACEP’s dedication to this cause led to the introduction of the ITLS Program in West Virginia and further expansion into the Virginia/District of Columbia forming ITLS Mid-Atlantic Chapter. The ITLS course is designed to teach physicians, paramedics, flight nurses, emergency nurses, physician assistants, EMTs, first responders, and others, a systematic and orderly approach to treating the trauma patient.

WVACEP provides support for the organization and instruction of ITLS courses within the states. WVACEP is also actively involved in the Mid-Atlantic organizational network, and upgrading and ensuring standardization of instructional programs.

The primary goal of WVACEP is to improve patient care through the education of emergency healthcare providers. This is achieved, in part, by supporting the management of a centralized ITLS program as a mechanism to ensure continued ITLS training throughout the states. The program must be carefully managed to ensure the highest degree of integrity.

The responsibilities of WVACEP include managing a system of education, including but not limited to: 1) conducting, approving, and certifying ITLS courses 2) establishing and ensuring standardization of instruction and certification 3) distributing course materials 4) collecting assessment fees and 5) assisting local organizations in conducting courses within their own areas. The ITLS Medical Director and the ITLS Chapter Coordinator have responsibility of ensuring maintenance of records and prior approval of all state ITLS activities.

B. Non-Discriminatory Policy and Limitation of Liability

It is the policy of ITLS Mid-Atlantic not tolerate nor condone discrimination due to age, race, color, religion, sex, national origin or disability. Concerns regarding discrimination should be brought to the attention of the WVACEP Executive Director.

ITLS Mid-Atlantic shall not be liable for any actions arising from any entity such as an EMS Agency, Training Center, Hospital, or other organization as a result of a course being conducted and/or sponsored by at the entity or organization’s location.
II. ITLS CHAPTER STRUCTURE

A. Emergency Medical Services (EMS) in Region
The ITLS Mid-Atlantic Chapter serves a widespread geographical area. When treating trauma patients, EMS providers are faced with several difficulties that are inherent to the locale. These difficulties include, but are not limited to: 1) lack of adequate staffing (some are small volunteer agencies) 2) mountainous terrain 3) lack of advanced highway systems, which extend transport times to local facilities 4) lack of centrally located tertiary care centers and 5) lack of adequate continuing education opportunities for healthcare providers. ITLS Mid-Atlantic can better prepare healthcare providers to deal with these difficulties.

B. Levels of Pre-hospital Providers
First Responder
Emergency Medical Technician
Advanced Emergency Medical Technician
Paramedic
Emergency Medical Services Attendant - DO, FN, MD, PA, RN

C. Time Line for Revision of Policies and Procedures
Periodic revisions will be made to this manual as deemed necessary. A formal review and revision will be done and submitted to ITLS Inc., every four years. Due to the lack of an organized EMS communication network, revisions will be disseminated through multiple lines of communication. Instructors will be notified by: 1) website posting, 2) written or e-mail communication to the ITLS Mid-Atlantic Affiliate Faculty Members, and/or 3) by mass written or email communication to ITLS Instructors.

D. Chapter Mission Statement
It is the mission of the ITLS Mid-Atlantic Chapter is to maintain an educational program that ensures provision of a current, effective, and systematic approach to assessment and management of the trauma patient. This will be realized by educating all levels of healthcare providers, within the Emergency Medical Services System.

E. Goals of the ITLS Mid-Atlantic Program
Specific goals of the ITLS Mid-Atlantic Program are to:

1. Facilitate coordination, scheduling, approval, and certification of ITLS courses throughout the District of Columbia, Virginia and West Virginia.

2. Develop and maintain a network of ITLS Instructors and Affiliate Faculty Members to ensure that the quality of ITLS courses will not be compromised.

3. Develop, coordinate, and promote an ITLS Instructor’s course to ensure that individuals teaching ITLS courses have a sound background in the principles of adult education, as well as proper care and management of the trauma patient.
4. Promote the ITLS Mid-Atlantic Program by: a) providing public relations support (to the extent feasible) to individuals or institutions coordinating ITLS courses and by participating as an exhibitor or providing speakers for conferences and seminars, related to EMS education or trauma care.

5. Implement changes to the structure of ITLS provider courses or to teaching materials regarding patient care, as directed by ITLS, Inc.

**F. ITLS Mid-Atlantic Organizational Chart**

Chapter Advisory Committee**

Chapter Medical Director

Chapter Coordinator(s)

Chapter Regional Faculty

Chapter Affiliate Faculty

Instructors

Providers

**This Committee consists of, but is not limited to: The ITLS Mid-Atlantic Medical Director, Chapter Coordinator(s) and the ITLS Regional Faculty.**

G. **Chapter Responsibilities**

The following is a list of some of the ongoing responsibilities of designated ITLS Chapters. This list is not all-inclusive and may not include other chapter-specific responsibilities:

- Local coordination of ITLS courses
- Collection of data, including the number of providers and faculty members
- Dissemination of information from the ITLS Office to the constituents of the chapter
- Provide information to the ITLS Office on ITLS Advisory Committee activities and new concepts developed within the chapter
- Provide annual reports to the ITLS Office
- Provide quality assurance for ITLS courses that are conducted within the chapter
- Provide local financial management for ITLS chapter programs
- Notification of ITLS of any changes in Medical Direction or Chapter Coordinator(s)
• Provide positive public relations for ITLS Advisory Committee activities conducted within the chapter

• Appoint delegates to represent the chapter at the ITLS Trauma Conference

• Send rosters and fees to the ITLS Office on a regular basis

• Develop program availability for the chapter by mentoring and developing Instructors and Affiliate Faculty Members

H. ITLS Responsibilities to the Chapter
The following is a list of ongoing activities and services that ITLS, Inc. provides to its chapters. This list is not intended to be all inclusive:

• Disseminating current information to chapters regarding changes in protocols, changes in ITLS teaching materials, and updates to ITLS policies and procedures

• Providing resources and organizational materials to new chapters to assist them in developing ITLS programs

• Providing a clearinghouse for ITLS Committee recommendations to the chapters

• Providing quality assurance at an international level by enforcing the guidelines and standards recommended by the ITLS Board of Directors and committees

• Conducting the Annual Meeting and Trauma Conference for constituents from all chapters that are represented

• Preparing financial reports

• Publishing an ITLS newsletter and maintaining a website designed to disseminate information to the chapters

• Distributing ITLS instructional materials and novelties

• Distributing all ITLS certification cards and certificates, and maintaining course roster information

I. Geographical Area Covered by the ITLS Mid-Atlantic Chapter
The area that will be primarily covered by the ITLS Mid-Atlantic Chapter will be within the borders of the District of Columbia, Virginia and West Virginia. Many emergency medical services and hospital systems are within close proximity to these geographical areas. As a result of this, requests may arise for ITLS Mid-Atlantic instructors and coordinators to assist in training efforts outside of the chapter’s boundaries. If this occurs, the Course Coordinator will submit a course request in CMS. Once the course is received, the Chapter Coordinator(s), he/she will contact the respective state coordinator to request permission to conduct the course within that chapter’s boundaries. The requesting Course Coordinator will be advised via CMS of the other chapter’s decision.
III. DESCRIPTION OF ITLS CERTIFICATIONS

A. **ITLS Basic Provider Class**

Certified as: Basic ITLS Provider

Description: This is a course lasting approximately 16 hours. During the course, materials that will be disseminated will include both didactic as well as hands-on applications in skill mastery stations.

Objectives: The ultimate objective of the course is to acquire the knowledge and skill of performing an organized assessment and managing injuries for the trauma patient in the pre-hospital environment.

Prerequisites: None

Target audience: Primarily first response personnel in the pre-hospital environment. This can include, but not be limited to, EMT-Basics, EMS First Responders, firefighters, and other allied healthcare providers.

Certified by: Successful completion of the ITLS Basic Provider Course, which requires a score of 74% or higher on the ITLS basic written examination, and achieving a score of adequate, good, or excellent on the patient assessment practical exam. To be eligible for an Instructor Potential rating, in addition to obtaining a good or excellent on the patient assessment practical, the participant must score at least 84% or higher on the written examination.

Certified for: Three (3) years

Re-certification: To recertify, a candidate must successfully complete an approved ITLS Basic Provider Course or an ITLS Basic Refresher Course.

Taught by: This course is to be taught by advanced and basic ITLS instructors. There is an allowance for 25% of the instructor base to be other experts in their field; however, they should only teach material that is consistent with their expertise and not contradict ITLS course material.

B. **ITLS Advanced Provider Class**

Certified as: Advanced ITLS Provider

Prerequisites: Candidates must be certified or licensed as an EMT-I, LPN*, EMT-P, RN, PA, or Physician. *Candidates must possess current certification/licensure which authorizes them to perform intravenous therapy. In addition, the candidate must be certified or licensed to perform at least one of the following skills: advanced airway management (ETI or laryngeal mask), needle decompression of tension pneumothorax, or Intraosseous needle placement.
Description: This is a course lasting approximately 16 hours. During the course, material that will be disseminated will include both didactic as well as hands-on applications in skill mastery stations.

Target audience: This audience consists of First responders with advanced skills as part of their scope of practice or others in courses of study to become advanced practitioners. Examples may include, but not be limited to, EMT-Intermediates, EMT-Paramedics, Registered Nurses, Physician Assistants, Physicians, etc.

Certified by: Successful completion of the ITLS advanced provider course requires achieving a score of 74% or higher on the ITLS advanced written provider examination, and achieving a score of adequate, good, or excellent, on the ITLS advanced patient assessment examination. To achieve Instructor Potential in an ITLS advanced provider course, and be eligible to attend an ITLS instructor course, the candidate must achieve at least an 84% on the ITLS advanced written examination and at least a good or excellent on the ITLS advanced patient assessment examination.

Certified for: Three (3) years

Re-certification: To renew certification as an ITLS advanced provider, a candidate must successfully complete an approved ITLS advanced provider course, or attend, and successfully complete, an approved ITLS advanced refresher course.

Taught by: This course is to be taught by advanced and basic ITLS instructors. Advanced instructors must teach the material that includes advanced material and procedures. There is an allowance for 25% of the instructor base to be other experts in their field; however, they should only teach material that is consistent with their expertise and not contradict ITLS course material.

**NOTE:** In practice groups, each person is the team leader at least once, assists at other times. In testing, one person at a time is tested.
C. **ITLS Refresher Course**

Certified as: Advanced or Basic ITLS Provider

Prerequisites: Candidates must possess a current ITLS provider card. Individuals whose ITLS provider card has been expired less than one year may also participate in an ITLS refresher course. For this option to be utilized, a copy of the student’s provider card must be submitted to the course coordinator.

Description: This is a course lasting approximately 8 hours. During the course, material that will be disseminated will include both didactic as well as hands-on applications in skill mastery stations.

Target audience: This audience consists of First responders with advanced skills as part of their scope of practice or others in courses of study to become advanced practitioners. Examples may include, but not be limited to, EMT-Intermediates, EMT-Paramedics, Registered Nurses, Physician Assistants, Physicians, etc.

Certified by: Successful completion of the ITLS advanced or basic refresher course requires achieving a score of 74% or higher on the ITLS advanced or basic written provider examination, and achieving a score of Adequate, good, or excellent, on the ITLS advanced patient assessment examination. To achieve Instructor Potential in an ITLS advanced provider course, and be eligible to attend an ITLS instructor course, the candidate must achieve at least an 84% on the ITLS advanced written examination and at least a good or excellent on the ITLS advanced or basic patient assessment examination.

Certified for: Three (3) years

Re-certification: To renew certification as an ITLS advanced or basic provider, a candidate must successfully complete an approved ITLS advanced or basic provider course, or attend, and successfully complete, an approved ITLS advanced or basic refresher course.

Taught by: This course is to be taught by basic and advanced ITLS instructors. Advanced instructors must teach the material that includes advanced material and procedures. There is an allowance for 25% of the instructor base to be other experts in their field; however, they should only teach material that is consistent with their expertise and not contradict ITLS course material.

D. **ITLS Pediatric Provider Course**

Certified as: Pediatric Trauma Life Support Provider

Prerequisites: There are no prerequisites to becoming a Pediatric Trauma Life Support provider; however, it is highly recommended that the candidate attend an ITLS provider course prior to attending a Pediatric Trauma Life Support provider course.

Certified by: Certification received upon successful completion of the Pediatric Trauma Life Support provider course. The candidate must attend all lectures and skill stations, score 74% or greater on the Pediatric Trauma Life Support written test, and achieve adequate® or greater, on the patient assessment testing station.

Certified for: Three (3) years

Re-certification: To renew certification as a Pediatric Trauma Life Support provider, a candidate must successfully complete an approved Pediatric Trauma Life Support provider course.

### E. ITLS Access Provider Course

Certified as: ITLS Access Provider

Prerequisites: None

Recognition Length: Three (3) years

Continued Recognition: Due to changes in vehicle construction and rescue techniques, it is strongly recommended that ITLS Access participants take the course every two years.
F.  **ITLS Basic Instructor**

Certified as:  Basic ITLS Instructor

Prerequisites:  Candidates must have successfully completed the ITLS basic provider course with an instructor potential (IP) rating: 84% or greater on the written exam; and a good or excellent on the patient assessment testing station.

Instructors Course:  Must complete the ITLS Instructor on-line course and attend an ITLS Instructor completer class.

Monitor Report:  Before receiving an instructor card, instructor candidates must participate as faculty in an ITLS basic provider course, or deliver a basic level topic in an ITLS advanced/combined provider course, and obtain a favorable recommendation from the ITLS Mid-Atlantic Affiliate Faculty Member monitoring the course.

Certified for:  Four (4) years

Re-certification:  The requirements for re-certification are:

- Instruct in four (4) ITLS courses during the certification period
- Complete all ITLS International required instructor updates

*Lapsed Certification:  Instructors whose certification has been lapsed less than one (1) year may, with the approval of the ITLS Mid-Atlantic Chapter Coordinator(s), reinstate his/her instructor status by:

Completing the ITLS Instructor on-line component, patient assessment and basic written exam as outlined above. Instructors, whose certification has lapsed for greater than one year must retake an ITLS provider course, score an IP and complete an ITLS instructor course to renew their instructor status.

The patient assessment testing station must be evaluated by either the Affiliate Faculty Member or the Medical Director. Instructor performance will be monitored by a designated Affiliate Faculty Member, who will then make a recommendation for renewal of the instructor status.
G. **ITLS Advanced Instructor**

Certified as: Advanced ITLS Instructor

Prerequisites: Candidates must be certified as an EMT-Intermediate, EMT-Paramedic, LPN, RN, PA, DO, or MD. Candidates must have successfully completed the ITLS Advanced Provider course with an IP rating: 84% or higher on the advanced written exam; and, a good or excellent on the patient assessment testing station.

Instructors
Course: Must complete the ITLS Instructor on-line course and attend an ITLS Instructor completer class.

Monitor
Report: Before receiving an ITLS advanced instructor card, the instructor candidate must participate as faculty in an ITLS provider course, and obtain a favorable recommendation from the ITLS Mid-Atlantic Affiliate Faculty Member monitoring the course.

Certified for: Four (4) years

Re-certification: The requirements for recertification are:

- Instruct in four (4) ITLS courses (basic or advanced) during the certification period
- Complete all ITLS International required instructor updates

*Lapsed Certification: Instructors whose certification has been lapsed less than one (1) year may, with the approval of the ITLS Mid-Atlantic Chapter Coordinator(s), reinstate his/her instructor status by:

Completing the ITLS Instructor on-line component, patient assessment and basic written exam as outlined above. Instructors, whose certification has lapsed for greater than one year must retake an ITLS provider course, score an IP and complete an ITLS instructor course to renew their instructor status.

The patient assessment testing station must be evaluated by either an Affiliate Faculty Member or Medical Director. Instructor performance will be monitored by a designated Affiliate Faculty Member, who will then make a recommendation for renewal of the instructor status.

H. **ITLS Pediatric Instructor**

Certified as: Pediatric Trauma Life Support Instructor
Prerequisites: Candidates must be certified as an ITLS Instructor and have successfully completed the Pediatric Trauma Life Support Provider course.

Certified for: Four (4) years

Re-certification: The requirements for Pediatric Trauma Life Support Instructor recertification are:

- Instruct in two (2) Pediatric Trauma Life Support course during the certification period
- Complete all ITLS International required instructor updates
- Must maintain current certification as an ITLS instructor

*Lapsed Certification: Instructors whose certification has been lapsed less than one (1) year may, with the approval of the ITLS Mid-Atlantic Chapter Coordinator(s), reinstate his/her instructor status by:

Completing the ITLS Instructor on-line component, patient assessment and basic written exam as outlined above. Instructors, whose certification has lapsed for greater than one year must retake an ITLS provider course, score an IP and complete an ITLS instructor course to renew their instructor status.

I. ITLS Access Instructor

Certified as: ITLS Access Instructor

Prerequisites: Candidates must:

1) Complete the ITLS access course
2) Teach under the direction of a currently certified ITLS access instructor at one (1) course
3) Receive a favorable, written recommendation from that currently certified ITLS access instructor

Certified for: ITLS Access instructors are not certified. They are recognized as current instructors for a period of two (2) years.

Recognition: ITLS Access instructors must instruct in one ITLS Access course during the recognition period.

The sponsor of an ITLS Access course must obtain liability insurance of no less than one million dollars prior to executing the ITLS Access course.

ITLS Access courses do not require the participation of a Course Medical Director.
J. **ITLS eTrauma Completer Course**

**Prerequisites:** Candidates must be certified or licensed as an EMT-B, EMT-I, LPN, EMT-P, RN, PA, or Physician.

**Description:** This is a course lasting approximately 8 hours designed to be used in conjunction with the ITLS eTrauma: Taking Trauma Training Online course. During the course, students will learn, practice, and demonstrate proficiency of the necessary skills that comprise the practical assessment of the ITLS provider course, thus earning ITLS basic or advanced certification.

**Target Audience:** This audience consists of those who have successfully the ITLS eTrauma Trauma Training Online course within the past 12 month period as evidenced by a valid course completion certificate.

**Certified by:** Successful completion of the ITLS completer provider course requires achieving a score of 74% or higher on the ITLS advanced or basic written provider examination, and achieving a score of adequate, good, or excellent, on the ITLS patient assessment examination.

To achieve Instructor Potential in an ITLS completer course, and be eligible to attend an ITLS instructor course, the candidate must achieve at least an 84% on the ITLS advanced or basic written examination and at least a good or excellent on the ITLS advanced patient assessment examination.

**Certified for:** Three (3) years

**Re-certification:** To renew certification as an ITLS provider, a candidate must successfully complete one of the following: ITLS advanced or basic refresher course; ITLS advanced or basic provider course; or the ITLS eTrauma course and completer course.

**Taught by:** This course is to be taught by basic and advanced ITLS instructors. Advanced instructors must teach the material that includes advanced material and procedures. There is an allowance for 25% of the instructor base to be other experts in their field; however, they should only teach material that is consistent with their expertise and not contradict ITLS course material.

### K. ITLS Military Provider

- **Certified as:** ITLS Military
- **Description:** This is a course lasting approximately 16 hours. During the course, materials that will be disseminated will include both didactic as well as hands-on applications in skill mastery stations.
- **Objectives:** The ultimate objective of the course is to acquire the knowledge and skill of performing an organized assessment and managing injuries for the trauma patient in a combat environment.
- **Prerequisites:** Advanced level EMS provider or basic level provider qualified to perform advanced skills in the military settings.
- **Target audience:** Primarily military medics, but may additionally, include first response personnel in the Military environment. This can include, but not be limited to, physicians, EMTs, Paramedics, Registered Nurses and other allied healthcare providers.
- **Certified by:** Successful completion of the ITLS Military Course, which requires a score of 74% or higher on the ITLS Military written examination, and achieving a score of adequate, good, or excellent on the patient assessment practical exam. To be eligible for an Instructor Potential rating, in addition to obtaining a good or excellent on the patient assessment practical, the participant must score at least 84% or higher on the written examination.
Certified for: Four (4) years

Re-certification: To recertify, a candidate must successfully complete an approved ITLS Military Course or a Military refresher course.

Taught by: This course is to be taught by ITLS Instructors. Anyone in the planning, delivery or coordination of the course should have military experience. There is an allowance for 25% of the instructor base to be other experts in their field; however, they should only teach material that is consistent with their expertise and not contradict either ITLS course material, or Army medical doctrine.

L. **ITLS Rapid Renewal**

Certified as: ITLS Provider

Description: This is the testing component of the ITLS Rapid Renewal option. Students must present their ITLS Rapid Renewal Course Completion Certificate and pass the written and psychomotor examinations.

Target Audience: This audience consists of those who have successfully the ITLS Rapid Renewal Online course within the past 12 month period as evidenced by a valid course completion certificate and who possess an ITLS Provider card that is no more than 1 year expired.

Certified by: Successful completion of the ITLS Rapid Renewal course requires achieving a score of 74% or higher on the ITLS advanced or basic written provider examination, and achieving a score of adequate, good, or excellent, on the ITLS patient assessment examination.

To achieve Instructor Potential in an ITLS Rapid Renewal course, and be eligible to attend an ITLS instructor course, the candidate must achieve at least an 84% on the ITLS advanced or basic written examination and at least a good or excellent on the ITLS advanced patient assessment examination.

Certified for: Three (3) years

Re-certification: To renew certification as an ITLS provider, a candidate must successfully complete one of the following: ITLS advanced or basic refresher course; ITLS advanced or basic provider course; ITLS eTrauma course and completer course or ITLS Rapid Renewal course and testing component.

Taught by: This course is to be taught by basic and advanced ITLS instructors. Advanced instructors may test advanced and basic providers. Basic instructors may only test basic providers.
IV. ITLS APPOINTMENTS

A. ITLS Mid-Atlantic Advisory Committee Members

Appointed As: ITLS Advisory Committee Member

Appointed By: WVACEP Chapter

Appointed For: Three (3) years

Prerequisites: Candidates must be currently licensed or certified as an Emergency Department or Pre-Hospital Healthcare Provider. Ideally, they are appointed as an ITLS Regional Faculty Member.

Appointment: Representatives should be basic and advanced EMS providers and other allied health professionals. The chapter developers should invite representation from area emergency medical organizations.

Vacancy

Procedure: A curriculum vitae, recommendations by two current Affiliate Faculty Members and a letter stating intent must be sent to the ITLS Mid-Atlantic Office. The committee shall select the most suited for the position from the pool of applicants. Advisory Committee members, other than the Chapter Medical Director, the ACEP representative, and Chapter Coordinator may serve a maximum of two consecutive terms.

Reappointment: The performance of the Advisory Committee members will be subject to review to determine the advisability of reappointment. The review will be completed by the entity or organization that appointed the member with recommendation by the Chapter Medical Director. The review will be held on a schedule consistent with the length of term of the committee. It is suggested that one-third of the members will be annually reviewed.

Removal: If written allegations are made regarding inappropriate conduct by or an inadequate knowledge base of the Chapter Advisory Committee Member, the WVACEP Board of Directors may initiate an investigation. The Chapter Advisory Committee Member designation may also be suspended pending the outcome of the investigation.

The WVACEP Board of Directors shall appoint a three member special committee to conduct the investigation. The investigation shall be completed within sixty (60) days. Upon completion, the Chapter Advisory Committee Member will be informed, in writing, of the basis of the allegations and given an opportunity to refute the allegations, in writing, within thirty (30) days.
The special committee will then make recommendations for action including, but not limited to, one or more of the following:

a. Temporary suspension of the Chapter Advisory Committee member designee for a specific period of time

b. Permanent suspension of the Chapter Advisory Committee Member designee

c. Remedial training

d. Supervision by the Chapter Advisory Committee and/or Chapter Coordinator

Duties and Responsibilities:

Advise the Chapter Medical Director and Chapter Coordinator on matters concerning the Chapter ITLS Program on issues such as:

• Development of Chapter policies and procedures

• Promulgation of ITLS throughout the chapter area

• Development of long range and strategic plans

• Dissemination of information at the local level

• Disciplinary issues

• Provides mechanism through which personnel throughout the area have a voice in ITLS related matters

• Appoints Chapter Medical Director and Chapter Coordinator

• In conjunction with the Chapter Medical Director and Chapter Coordinator, appoints Affiliate Faculty Members

• Oversee the due process of revocation for ITLS Instructors, Affiliate Faculty Members, Course Coordinators, and Course Medical Director

• Other duties as assigned by the Chapter
B. **ITLS Mid-Atlantic Advisory Committee Chairperson**

**Appointed as:** ITLS Advisory Chairperson  
**Appointed by:** WVACEP  
**Appointed for:** Two (2) years  

**Prerequisites:** Must be a member of the Chapter Advisory Committee, must have extensive experience in managing continuing education courses and demonstrated an in-depth knowledge of ITLS and experience as a committee member is preferred.

**Appointment:** The ITLS Advisory Committee Chairperson will be appointed by WVACEP from the body of the ITLS Advisory Committee.

**Reappointment:** The performance of the Advisory Committee Chairperson will be subject to review to determine the advisability of reappointment. The review will be completed by the entity or organization that appointed the member with recommendation by the Chapter Medical Director. The review will be held on a schedule consistent with the length of term of the committee. It is suggested that one-third of the members will be reviewed annually.

**Removal:** If written allegations are made regarding inappropriate conduct by or an inadequate knowledge base of the Chapter Advisory Committee chairperson, the WVACEP Board of Directors may initiate an investigation. The Chapter Advisory Committee Chairperson designee may also be suspended pending the outcome of the investigation.

The WVACEP Board of Directors shall appoint a three member special committee to conduct the investigation. The investigation shall be completed within sixty (60) days. Upon completion, the Chapter Advisory Committee Chairperson will be informed, in writing, of the basis of the allegations and be given an opportunity to refute the allegations, in writing, within thirty (30) days.

The special committee will then make recommendations for action including, but not limited to, one or more of the following:

- Temporary suspension of the Chapter Advisory Committee Chairperson designee for a specific period of time
- Permanent suspension of the Chapter Advisory Committee Chairperson designee
- Remedial training
• Supervision by the Chapter Advisory Committee and/or Chapter Coordinator

Duties and Responsibilities:

• Lead and supervise the ITLS Advisory Committee
• Serve as the liaison between the ITLS Advisory Committee and the WVACEP Board of Directors
• Advise the WVACEP Board of Directors on issues relative to the operation of the ITLS program and the progress of the Advisory Committee
• Oversee the operation of the ITLS Advisory Committee
• Appoint ad hoc subcommittees as needed to address specific ITLS issues
• Provide leadership for the ITLS Advisory Committee for strategic and long range planning
• Appoint a special committee to execute due process in the event of revocation
• Other duties as assigned by the chapter

C. ITLS Mid-Atlantic International Meeting Delegate

ITLS sponsors an annual meeting and conference for trauma education, and for conduction of business and elections for the ITLS Board of Directors. The number of votes (delegates) a chapter is awarded for the business session of the International Conference is determined by the number of ITLS certifications issued during the past two calendar years. It is the prerogative of the ITLS Chapter Advisory Committee to appoint delegates to accurately represent the interests of the Chapter.

Appointed as: ITLS Meeting Delegate
Appointed by: ITLS MID-ATLANTIC Advisory Committee and/or the Chapter Medical Director
Appointed for: Two (2) years
Prerequisites: 1) Appointee should be a current Affiliate Faculty Member

2) Appointee should have a strong working knowledge of ITLS and related issues

3) Appointee should attend orientation by the Chapter Medical Director and/or the Advisory Committee to the position

Duties and Responsibilities:

1) Represent the ITLS Mid-Atlantic Chapter as an International Meeting Delegate

2) Communicate the perspective of the ITLS MID- ATLANTIC Chapter with regard to major issues

3) Disseminate information to all members of the Chapter Advisory Committee as required

4) Participate in the assessment of the ITLS program

5) Participate in the formation process of continuing course revision

6) Participate in the development of ITLS, Inc.

D. ITLS Mid-Atlantic Medical Director

Appointed as: ITLS Mid-Atlantic Medical Director

Appointed by: WVACEP

Appointed for: Two (2) years

Prerequisites: 1) Shall be a physician actively involved in emergency medicine with a demonstrated background in involvement of pre-hospital care.

2) Must maintain certification in Advanced Trauma Life Support or ITLS.

Reappointment The performance of the Chapter Medical Director will be subject to review, on an annual basis, to determine the advocacy of reappointment.

Removal: If written allegations are made regarding inappropriate conduct by the Chapter Medical Director, the WVACEP Board of Directors may initiate an investigation. The Chapter Medical Director designee may also be suspended pending the outcome of the investigation.
The WVACEP Board of Directors shall appoint a three member special committee to conduct the investigation. The investigation shall be completed within sixty (60) days. Upon completion, the Chapter Medical Director will be informed, in writing, of the basis of the allegations and given an opportunity to refute the allegations, in writing, within thirty (30) days.

The special committee will then make recommendations for action including, but not limited to, one or more of the following:

- Temporary suspension of the Chapter Medical Director designation for a specific period of time
- Permanent suspension of the Chapter Medical Director designation
- Remedial training
- Supervision by the Chapter Advisory Committee and/or Chapter Coordinator

Duties and Responsibilities:

- Provide overall medical direction to the ITLS Mid-Atlantic Program
- Approve all ITLS activities within the state
- Participate in the selection of the ITLS Mid-Atlantic Chapter Coordinator
- Appoint individuals to serve as ITLS Mid-Atlantic Affiliate Faculty
- Serve as the Course Medical Director for all ITLS Instructor courses
- Serve as a voting delegate at the annual ITLS Congress
- Retain the authority to suspend the certification of any ITLS Mid-Atlantic provider, instructor, or Affiliate Faculty Member. In such event, the decision of the ITLS Mid-Atlantic Medical Director shall be final
- Other duties as assigned by the Chapter

Continuity of Operations:

If the Chapter Medical Director resigns, ample time must be given to
orient a new Medical Director in order to maintain continuity of operations.

E. **ITLS Mid-Atlantic Chapter Coordinator**

**Appointed as:** ITLS Mid-Atlantic Chapter Coordinator  
**Appointed by:** WVACEP Board of Directors and Chapter Medical Director  
**Appointed for:** Two (2) years  
**Prerequisites:**
1) Shall be an individual who has extensive experience in managing continuing education courses, and who has in-depth knowledge of pre-hospital and emergency department trauma care.  
2) Must maintain certification as an ITLS Advanced Instructor.

**Appointment:** The performance of the Chapter Coordinator should be reviewed on an annual basis to determine the advocacy of reappointment. Should the Chapter Coordinator not demonstrate satisfactory performance or not wish to continue, the WVACEP Board of Directors shall initiate a search for a qualified candidate.

**Removal:** If written allegations are made regarding inappropriate conduct by the Chapter Coordinator, the WVACEP Board of Directors may initiate an investigation. The Chapter Coordinator designation may also be suspended pending the outcome of the investigation.

The WVACEP Board of Directors shall appoint a three member special committee to conduct the investigation. The investigation shall be completed within sixty (60) days. Upon completion, the Chapter Coordinator will be informed, in writing, of the basis of the allegations and given an opportunity to refute the allegations, in writing, within thirty (30) days.

The special committee will then make recommendations for action including, but not limited to, one or more of the following:

- Temporary suspension of the Chapter Coordinator designation for a specific period of time
- Permanent suspension of the Chapter Coordinator designation
- Remedial training
- Supervision by the Chapter Medical Director
Duties and Responsibilities:

- Provide administrative management to the ITLS Mid-Atlantic program
- Approve all ITLS Mid-Atlantic activities
- Maintain all ITLS program files and records, to include a calendar of scheduled courses, course files, and minutes of Affiliate Faculty meetings, individual instructor and Affiliate Faculty Member files, and financial records, program reports, and official correspondence files
- Issue cards/certificates to individuals who meet the criteria for certification as ITLS Mid-Atlantic providers or instructors
- Oversee the distribution and inventory maintenance of course materials and ITLS Mid-Atlantic novelty items
- Serve as the official representative of the ITLS Mid-Atlantic Program, and function as a liaison to other organizations and entities with an interest in pre-hospital trauma care education
- Nominate individuals to serve as ITLS Mid-Atlantic Affiliate Faculty Members; (Appointments as Affiliate Faculty Members are made by the ITLS Mid-Atlantic Medical Director from the list of nominees presented by the Chapter Coordinator)
- Serve as the Course Coordinator for all ITLS Instructor courses
- Serve as a voting delegate at the annual ITLS Congress
- Other duties deemed necessary to further ITLS Mid-Atlantic Chapter goals

Continuity of Operations:

If the Chapter Coordinator resigns, ample time must be given to orient a new Chapter Coordinator in order to maintain continuity of operations.
F. **ITLS Mid-Atlantic Regional Faculty Members**

**Appointed as:** ITLS Mid-Atlantic Faculty Members

**Appointed by:** ITLS Mid-Atlantic Chapter Coordinator and/or Chapter Medical Director

**Appointed for:** Three (3) years

**Prerequisites:**

1. Shall have extensive experience in conducting ITLS course
2. Shall have in-depth knowledge of pre-hospital care
3. Shall have extensive experience in managing continuing education courses
4. Shall have in-depth knowledge of pre-hospital and emergency department trauma care
5. Shall be thoroughly familiar with the policies and procedures of the ITLS Mid-Atlantic program
6. Must maintain ITLS Mid-Atlantic Affiliate Faculty Status

**Appointment:** The ITLS Mid-Atlantic Regional Faculty Members Will Be Appointed By The ITLS Mid-Atlantic Chapter Coordinator. The Regional Faculty Members will serve at the discretion of the ITLS Mid-Atlantic Chapter Coordinator, who may suspend or revoke Regional Faculty Members status of any individual who does not maintain the standards of the ITLS Mid-Atlantic Program.

**Reappointment:**
The performance of the Regional Faculty Members shall be reviewed on an annual basis, to determine the advocacy of reappointment. To be reappointed, Regional Faculty Members must volunteer to coordinate and conduct at least one ITLS Instructor completer course each year yielding at least 10 new ITLS Instructors annually and must serve as an Affiliate Faculty Member during a provider course at least once every three years. Regional Faculty Members will be expected to work with the ITLS Mid-Atlantic Chapter Coordinator to develop and implement regional goals in order to expand and strengthen the ITLS Mid-Atlantic program.

**Removal:**
If written allegations are made regarding inappropriate conduct by or an inadequate knowledge base of the Regional Faculty Member, the WVACEP Board of Directors may initiate an investigation. Designation as a member of the Affiliate Faculty may also be suspended pending the outcome of the investigation. The WVACEP Board of Directors shall appoint a three member special committee to conduct the investigation.
The investigation shall be completed within sixty (60) days. Upon completion, the Regional Faculty Member will be informed, in writing, of the basis of the allegations and given an opportunity to refute the allegations, in writing, within thirty (30) days.

The special committee will then make recommendations for action including, but not limited to, one or more of the following:

- Temporary suspension of Regional Faculty designation for a specific period of time
- Permanent suspension of Regional Faculty designation
- Remedial training
- Supervision by the Chapter Coordinator

Duties and Responsibilities:

- Ensure quality in the delivery of the ITLS Mid-Atlantic Program
- Serve as a resource person for Affiliate Faculty Members
- Participate as faculty for instructor courses and updates
- Participate as faculty for Provider courses
- Participate in the ITLS Advisory Committee by providing input affecting decisions made at the chapter level
- Effect instructor recertification by testing written and practical skills of instructors at provider courses
- Other duties as assigned by the chapter coordinator

| Prerequisites      | 1) Shall have extensive experience in conducting ITLS courses  
                            2) Shall have in-depth knowledge of pre-hospital care |
3) Shall be thoroughly familiar with the policies and procedures of the ITLS Mid-Atlantic program

4) Must have certification as a ITLS Mid-Atlantic instructor for a period of not less than two years

5) Must maintain current certification as an instructor

6) Must have coordinated at least two ITLS courses

7) Must have participated at least once as a faculty member during a ITLS instructor course

Appointment: The ITLS Affiliate Faculty Members will be appointed by the ITLS Mid-Atlantic Medical Director from a list of nominees provided by the ITLS Mid-Atlantic Chapter Coordinator. The Affiliate Faculty Members will serve at the discretion of the ITLS Mid-Atlantic Medical Director, who may suspend or revoke Affiliate Faculty Members status of any individual who does not maintain the standards of the ITLS Mid-Atlantic Program. The ITLS Chapter Coordinator will compile a list of qualified nominees when the need for additional Affiliate Faculty Members has been identified in a particular region or area of the Chapter.

Reappointment: The performance of the Affiliate Faculty Members shall be reviewed on an annual basis, to determine the advocacy of reappointment. To be reappointed, an Affiliate Faculty Members must participate, when possible, as faculty during a ITLS Instructor course at least once every three years, and must serve as an Affiliate Faculty Member during a provider course at least once every three years. ITLS Mid-Atlantic’s main communication with Affiliate Faculty will be through quarterly e-mails. If necessary, face-to-face meetings will be scheduled. The purpose of these e-mails/meetings is to communicate curriculum changes, distribute new materials, and disseminate changes made at the chapter level and to the policy and procedure manual.

Removal: If written allegations are made regarding inappropriate conduct by or an inadequate knowledge base of the Affiliate Faculty Member, the WVACEP Board of Directors may initiate an investigation. Designation as a member of the Affiliate Faculty may also be suspended pending the outcome of the investigation. The WVACEP Board of Directors shall appoint a three member special committee to conduct the investigation. The investigation shall be completed within sixty (60) days. Upon completion, the Affiliate Faculty Member will be informed, in writing, of the basis of the allegations and given an
opportunity to refute the allegations, in writing, within thirty (30) days.

The special committee will then make recommendations for action including, but not limited to, one or more of the following:

- Temporary suspension of Affiliate Faculty designation for a specific period of time
- Permanent suspension of Affiliate Faculty designation
- Remedial training
- Supervision by the Chapter Coordinator

Duties and Responsibilities:

- Ensure quality in the delivery of the ITLS Mid-Atlantic Program
- Serve as a resource person for CMD and Course Coordinators
- Participate as faculty for instructor courses and updates
- Participate as faculty for Provider courses
- Participate in the ITLS Advisory Committee by providing input affecting decisions made at the chapter level
- Effect instructor recertification by testing written and practical skills of instructors at provider courses
- Other duties as assigned by the chapter

V. PROTOCOL FOR CONDUCTING ITLS COURSES

A. Course Medical Director (CMD)

Eligibility:

- The Course Medical Director must be a licensed physician within the chapter (or course for approved out of state courses) boundaries
- They should be familiar with EMS systems and pre-hospital care, and have experience and training related to trauma patients
- Must be either currently certified as an ITLS Instructor or an Advanced Trauma Life Support (ATLS) provider or be board certified in emergency medicine
Teamwork and communication are essential to a successful ITLS course. The Course Medical Director and Course Coordinator must have a smooth working relationship and open communication.

Responsibilities:

- Appropriately integrate the material contained in the ITLS course into the local pre-hospital and emergency department systems.

- Must take overall responsibility for the quality of the course.

- To improve care of the trauma patient in the pre-hospital environment as well as provide for appropriate coordination of the continuum of care through the hospital environment. This is best achieved by having a good knowledge of the emergency department and its staff. Involving a physician in ITLS courses that has a background in emergency medicine or is proficient in trauma care improves the quality of our courses. It is recommended that you should involve a physician with the above qualities in your course whenever possible. In the absence of a qualified physician, it is mandatory that the Affiliate Faculty Member be present for the entire course and manage course questions and quality to the highest standards.

- Must review the schedule and ensure that it allows adequate time for lectures and skill stations, including ensuring that lecturers stay within their allotted time frame.

- If questions arise concerning grading, the vote of the majority of the faculty will prevail. The Course Medical Director will vote only in the case of a tie.

Removal: If written allegations are made regarding inappropriate conduct by, or an inadequate knowledge base of, the Course Medical Director, the WVACEP Board of Directors may initiate an investigation. The Course Medical Director designation may also be suspended pending the outcome of the investigation.

The WVACEP Board of Directors shall appoint a three member special committee to conduct the investigation. The investigation shall be completed within sixty (60) days. Upon completion, the Course Medical Director will be informed, in writing, of the basis of the allegations and given an opportunity to refute the allegations, in writing, within thirty (30) days. The special committee will then make recommendations for action including, but not limited to, one or more of the following:

- Temporary suspension of the Course Medical Director designation for a specific period of time.

- Permanent suspension of the Course Medical Director designation.
• Remedial training.
• Supervision by the Chapter Coordinator.

**If these policies are violated, the course may not be certified by the WV Chapter. If you are the Course Coordinator, and you have exhausted your resources in attempting to secure a Course Medical Director, contact the ITLS Mid-Atlantic Chapter Coordinator at least one week in advance of the course.

B. **Course Coordinator**

Eligibility:

• Must be a currently certified ITLS instructor for the level of course to be conducted.
• Should be experienced in conducting EMS educational programs.
• Should possess a high degree of organization and motivation.
• Must have a smooth working relationship and open communications with the Course Medical Director.

Responsibilities:

• Must be present throughout the course and will serve as the primary resource for information and questions.
• Coordinates all aspects of the ITLS course:
  - Proper pre-course preparation
  - Ordering of textbooks
  - Preparation of student and faculty course packets
  - Arranging for equipment
  - On-site coordination
  - Registration of students
  - Appropriate equipment placement
  - Flow of skill stations
  - Patient assessment practice and testing stations
Grading of written exams

Complete the appropriate paperwork and submitting fees to the chapter office within the required time frame

Other duties as assigned by the chapter

Removal: If written allegations are made regarding inappropriate conduct by or an inadequate knowledge base of the Course Coordinator, the WVACEP Board of Directors may initiate an investigation. The Course Coordinator designation may also be suspended pending the outcome of the investigation.

The WVACEP Board of Directors shall appoint a three member special committee to conduct the investigation. The investigation shall be completed within sixty (60) days. Upon completion, the Course Coordinator will be informed, in writing, of the basis of the allegations and given an opportunity to refute the allegations, in writing, within thirty (30) days.

The special committee will then make recommendations for action including, but not limited to, one or more of the following:

- Temporary suspension of the Course Coordinator designation for a specific period of time
- Permanent suspension of the Course Coordinator designation
- Remedial training
- Supervision by the Chapter Advisory Committee and/or Chapter Coordinator

C. Course Instructors

Eligibility:

- Must be a currently certified ITLS instructor for the level of course to be conducted.

Responsibilities:

- Execute assigned lecture and/or skills stations according to ITLS Mid-Atlantic and ITLS, Inc. guidelines.

Removal: If written allegations are made regarding inappropriate conduct by or an inadequate knowledge base of the instructor, the WVACEP Board of Directors may initiate an investigation. The instructor designation may also be suspended pending the outcome of the investigation.
The WVACEP Board of Directors shall appoint a three member special committee to conduct the investigation. The investigation shall be completed within sixty (60) days. Upon completion, the instructor will be informed, in writing, of the basis of the allegations and given an opportunity to refute the allegations, in writing, within thirty (30) days.

The special committee will then make recommendations for action including, but not limited to, one or more of the following:

- Temporary suspension of the instructor designation for a specific period of time.
- Permanent suspension of the instructor
- Remedial training
- Supervision by the Chapter Advisory Committee and/or Chapter Coordinator

C. Guidelines for Co-Sponsorship

1. Registrants:
   - Advanced provider course registrants must be licensed as an EMT-I, EMT-P, RN, LPN, PA, or Physician.
   - Basic provider course registrants have no prerequisites.
   - Requests for monitoring a course should be considered on an individual basis, and at the discretion of the Course Coordinator and Affiliate Faculty Member/Course Director. These registrants must be informed that they are not eligible to test or to receive a certificate of completion.

2. Provider courses must be approved by the ITLS Mid-Atlantic Chapter Coordinator.

3. ITLS Mid-Atlantic recommends a ratio of 1 instructor to every six students, plus a course director and coordinator. The number of students is limited by the number of faculty available to teach. Most classes range from 24-36 students but, if enough instructors are available, as many as 50 students may be taught. Pediatric Trauma Life Support instructor to student ratio is preferably 1:6.

4. An ITLS Mid-Atlantic Affiliate Faculty Member must be present at all courses.

5. A Course Medical Director does not necessarily have to be present during a course, but must be available by phone.

6. Course Coordinators are current ITLS Mid-Atlantic instructors who are approved by the ITLS Mid-Atlantic Coordinator to serve as course coordinator.

7. Staffing by certified ITLS instructors at patient assessment stations, regardless of course, will reflect the 1:6 ratio.
8. All co-sponsoring organizations must be identified when requesting course approval.

9. No product endorsement may result from this program.

10. ITLS Mid-Atlantic reserves the right to withdraw co-sponsorship and certification at any point if there is a failure to adhere to the agreed upon course guidelines.

11. All material outlined in ITLS manuals and West Virginia additions (If Any) must be included in a course. Any proposed additions or subtractions must be submitted to the ITLS Mid-Atlantic Chapter Coordinator for approval PRIOR to the course.

12. No course is considered complete until the appropriate information is entered in to the Course Management System and the ITLS Mid-Atlantic Affiliate Faculty Report and fees are submitted by the ITLS Mid-Atlantic office.

13. ITLS Mid-Atlantic Affiliate Faculty Members will issue cards and certificates of course completion to the course coordinator for registrants who successfully complete the course. The card and certificate represents course completion only and is not a form of licensure.

**Advanced, Basic and Combined Course**

1. Advanced, basic and combined course core material includes the following seven chapters: Scene Size Up, Trauma Assessment and Management, Shock, Pediatric Trauma, Geriatric Trauma, Trauma in Pregnancy, and Trauma Arrest. All chapters are optional. If using only the 7 course chapters, the additional time is expected to be filled in with case based scenarios.

2. There are six skill stations recommended by ACEP instead of the ten recommended by ITLS and are outlined below. Skill stations 1-6 as outlined by ITLS are core. Staffing by certified ITLS instructors at patient assessment stations will reflect the 1:6 ratios.

3. Skills found in the appendix of student manual are optional. ITLS MID-ATLANTIC suggests the skill stations be divided as outlined in the course agendas. The patient assessment stations are the heart of the course. They integrate the lectures and the skills.

   - Skill Station 1 - Basic & Advanced Airway (Advanced Only for Adv. Providers)
   - Skill Station 2 - Short Backboard, Long Backboard, Log Roll & Rapid Extrication
   - Skill Station 3 - Traction Splints, Helmet Management & Splinting
   - Skill Station 4 - Chest Decompression & Fluid Resuscitation (Advanced Providers Only - External Jugular Vein Cannulation & Intraosseous Infusion)
   - Skill Station 5 - Patient Assessment
Skill Station 6 - Patient Assessment

**Pediatric Course**

1. The first fifteen chapters of the Pediatric Trauma Life Support text are considered core and should be covered in all courses. Some portions of the appendix may also be added.

2. Staffing by certified ITLS instructors at patient assessment stations will reflect the 1:6 ratio.
   - Skill Station 1 – Patient Assessment
   - Skill Station 2 – Airway Management
   - Skill Station 3 – Spinal Immobilization
   - Skill Station 4 – Needle Cricothyrotomy
   - Skill Station 5 – Fluid Resuscitation, Intraosseous, and Broselow Tape

3. Usually, an ITLS course must be completed in a consecutive two-day period or extended over four non-consecutive days if the course is completed within ten (10) days. The Course Coordinator and Affiliate Faculty Member are present at all sessions.

**D. End of Course Reporting**

At the completion of an ITLS provider course the following must occur:

The Course Coordinator will:

- Conduct a post-course instructor meeting to discuss items of closure relating to course quality and any issues encountered.

- Enter demographic information of all students into the Course Management System.

- Enter course faculty into the Course Management System.

- Send a summary of student evaluations to ITLS Mid-Atlantic and payment as follows:
  - $40.00/per student

Course fees can be paid via check or via the ITLS Mid-Atlantic Website using a credit card. ITLS Mid-Atlantic will be responsible for submitting ITLS fees to the ITLS, Inc. Office.
If approved by the Chapter Coordinator(s), the Course Coordinator can print and issue cards/certificates to students successfully completing the course. This occurs in conjunction with submitting student and faculty rosters electronically into the Course Management System. On-site printing of cards is privilege and will be suspended if payment of fees is not made in a timely manner.

The Affiliate Faculty Member will:

- Complete and submit electronically to the Chapter Coordinator(s) an Affiliate Faculty Visitation Report along with new instructor monitoring forms.

**E. Certification Policy**

In order to successfully complete any level of ITLS Provider course, the student must:

- Successfully complete the appropriate post-test with a score of 74% or higher.
- Successfully complete the patient assessment testing station, scoring adequate, good or excellent.
- Attend all lectures and skill stations.

Certification will be issued after all items above are completed, documented, and appropriate fees are paid. Certification cards and continuing education certificates may be printed, by the Course Coordinator, after data in the Course Management System is complete, and upon approval of the Affiliate Faculty Member. ITLS Mid-Atlantic course completion cards will expire 2 years following course completion.

Occasionally a student will attend a provider course that has difficulty with successful completion of written or practical testing or both. In such cases where a student does not achieve 74% on the written test, he/she may be administered the second version of that level of written test after a discussion is held between the student and either the Course Coordinator or the Affiliate Faculty Member. If the student does not successfully complete the second version of the written test, he/she must attend the lecture sessions of another provider course to be eligible to test again. If a student scores inadequate on the patient assessment testing scenario, he/she should be remediate as to the problems they encountered during the scenario and be given the option of testing again with another instructor. If the student doesn’t successfully complete the second scenario, he/she must attend the skill stations of another provider course before becoming eligible to do practical testing again.
F. Quality Assurance
Occasionally a “quality” concern arises during a course. When this occurs, the Affiliate Faculty Member is the person responsible for ITLS curriculum integrity. Irrespective of the background of instructors teaching in ITLS courses, and the care they may provide in their scope of practice, ITLS curriculum must be taught exclusively in ITLS courses. When an issue arises, correcting the issue should ideally take place at the lowest level possible, but definitely should be corrected and the correct information disseminated as soon as possible during the course. If the issue is physiology based and the Affiliate Faculty Member isn’t certain of how to correct the question or issue, the Course Medical Director and/or Chapter Medical Director should be utilized to secure the correct information.

G. Student Dispute Resolution Policy
Occasionally a student may be displeased with a situation that occurs during a provider course. If the Course Coordinator and/or Affiliate Faculty Member cannot bring the displeasure to closure, they will provide the student with the email address and phone number of the Chapter Coordinator for them to contact with their concerns. Once contacted, the Chapter Coordinator will interview the student and collect pertinent information to form a case. The Chapter Coordinator will then interview the person or persons the student has displeasure with. The Chapter Coordinator can then give closure to the situation if it is an easy issue to address. If it is complicated or the Chapter Coordinator feels less than comfortable addressing the issue personally, they should involve the Chapter Medical Director and or Chapter Advisory Committee, all the while avoiding conflict of interest. After the matter is closed, communication to all parties involved should take place, preferably in written form.

H. Requesting an ITLS Course
1. The Course Coordinator should submit a completed Course Request Form via the Course Management System at http://cms.itrauma.org at least 15 days prior to the proposed course. This will facilitate student registration for the course where courses are being conducted in their area, and allow instructors to teach in the course, furthering renewal of their instructor card. If the course is not registered prior to conducting it, it may not be a certified course and completion cards will not be issued.

2. Upon receipt of the application, the Chapter Coordinator will review the request within seven days and respond to the Course Coordinator with the results.

3. For guidance throughout the planning, conducting, and finalization of a course, assistance can be obtained by contacting an Affiliate Faculty Member. The Chapter Coordinator will provide a list of the Affiliate Faculty Members upon request. This list can also be found on the ITLS Mid-Atlantic website. Course Coordinators must also secure a Course Medical Director. Course Medical Directors are encouraged to be on sight; however, may be available by phone.
4. Upon completion of the course, the Course Coordinator must submit the Faculty and Student rosters within ten (10) days of completion of the course via the CMS.

I. ITLS Mid-Atlantic Affiliate Faculty Training Program

The ITLS Mid-Atlantic Office may periodically conduct Affiliate Training Programs. When this occurs, the following information will be presented, at a minimum:

1. Registration
2. Welcome and Course Overview
3. International ITLS: A Global Perspective
4. WV Chapter ITLS: A Local Perspective
5. Overview of Chapter Policies and Procedures

Upon being appointed to serve as Affiliate Faculty for an ITLS provider course, the Affiliate Faculty Member shall contact the Course Coordinator to provide guidance on the development and delivery of the course, to include:

- Proper notification and approval of the course through the ITLS Mid-Atlantic Chapter Coordinator
- Proofread the agenda, guaranteeing that all core material is included
- Selection and recruitment of course instructors and course medical director
- Procurement of necessary equipment and supplies

6. Roles and Responsibilities of the Affiliate Faculty Member.

During the provider course, the Affiliate Faculty Member shall be physically present for the entire course, and must be present during the written and practical examinations. They shall also be present any time that the Course Medical Director is not present.

- Each Affiliate Faculty Member has been issued a set of the ITLS written post-tests, and is responsible for maintaining the security of those exams, including the tests, answer key, and completed student answer sheets.
- The Affiliate Faculty Member may appoint a trustworthy and reliable instructor to actually proctor the written exam, if the written and practical exams are being conducted simultaneously.
• The Affiliate Faculty Member must remain free to conduct or monitor a practical testing station. In such situations, the Affiliate Faculty Member must provide explicit directions to the proctor, and the Affiliate Faculty Member retains responsibility for exam security.

• During the provider course, the Affiliate Faculty Member will monitor any instructors who are teaching for the first time. The Affiliate Faculty Member will complete an Instructor Monitor Report form and review the report with the instructor at the completion of his/her participation in the course.

• During the provider course, the Affiliate Faculty Member will identify those instructors who need to retest the written exam and practical patient assessment testing station, for the purpose of recertification, and will ensure administration of the test to those individuals. The Affiliate Faculty Member and/or Course Medical Director must be physically present, and serve as an evaluator, whenever an instructor is evaluated at the practical patient assessment state.

• During the provider course, the Affiliate Faculty Member will retain final responsibility for ensuring that the standards and criteria of the ITLS Mid-Atlantic Program are maintained. The Affiliate Faculty Member may recommend that a course not be certified if any deviations from the standards occur. Such a recommendation will be closely reviewed by the ITLS Mid-Atlantic Medical Director and ITLS Mid-Atlantic Chapter Coordinator, before any cards or certificates will be issued to course participants.

• At the completion of the course, the Affiliate Faculty Member will provide guidance to the Course Coordinator in the completion and submission of course rosters (student and faculty rosters) in the Course Management System.

• Within five (5) working days of the completion of the course, the Affiliate Faculty Member shall submit the following items to the ITLS Mid-Atlantic Office:
  - Affiliate Faculty Visitation Report
  - Instructor Monitor Reports (If Applicable)

A secondary role of the Affiliate Faculty is to recruit and train new ITLS Instructors. In this role the Affiliate Faculty Member shall:

• Identify individuals achieving an IP rating during an ITLS provider course, and encourage them to attend an ITLS instructor course. IP ratings are achieved by appropriate scoring on the written test and practical skills evaluation and are not optional based upon the Coordinator’s or Affiliate’s opinion
• Serve as the core faculty during the ITLS instructor course

• Function as mentors to newly trained instructors who are participating as faculty in a provider course

7. Common perils and pitfalls within a typical ITLS provider course

8. Review of the ITLS scoring system

9. Summary

10. Questions and Answers and Course Evaluation

J. **ITLS Instructor Course**

ITLS Providers who meet the requirements to become an ITLS Instructor must first complete the ITLS on-line instructor methodology course. Once completing the on-line component, the instructor candidate must complete the chapter in-classroom component.

Mandatory topics to be presented at the in-classroom component include, at a minimum:

1. Introduction
   a. Structure of the ITLS Mid-Atlantic Program
   c. Chapter Policies and Procedures
   d. Authorization for a Course
   e. Administrative Guidelines

2. Teaching ITLS cognitive sessions

3. ITLS Scenario Practice

4. Skills Stations
   a. Instructor Objectives
   b. Set-Up
   c. Techniques and Troubleshooting
   d. Grading criteria and Grading Sheets
   e. Demonstrations and Pitfalls

6. Mini-Lectures

7. Course Evaluation

K. **ITLS Provider Courses - Core versus Optional Material**

1. All lectures and skill stations from the current edition ITLS Text are core elements for ITLS provider courses, and must be incorporated into all approved courses.
2. The topics listed below are considered core material for an ITLS provider course, and must be covered in all advanced, basic, and combined provider courses:

Chapter 1  Scene Size Up
Chapter 2  Assessment and Initial Management of the Trauma Patient
Chapter 3  Patient Assessment Skills
Chapter 4  Initial Airway Management
Chapter 5  Airway Management Skills
Chapter 6  Thoracic Trauma
Chapter 7  Thoracic Trauma Skills
Chapter 8  Shock Evaluation and Management
Chapter 9  Fluid Resuscitation Skills
Chapter 10  Head Trauma
Chapter 11  Spinal Trauma
Chapter 12  Spine Management Skills
Chapter 13  Abdominal Trauma
Chapter 14  Extremity Trauma
Chapter 15  Extremity Trauma Skills
Chapter 16  Burns
Chapter 17  Trauma in Children
Chapter 18  Trauma in the Elderly
Chapter 19  Trauma in Pregnancy
Chapter 20  Patients Under the Influence of Alcohol or Drugs
Chapter 21  The Trauma Cardiopulmonary Arrest
Chapter 22  Standard Precautions in the Pre-hospital Setting

Chapters contained in the appendix are considered to be optional, and should not be covered in a two-day provider course (there is too much material).

* The core skill stations contained in the above list are considered core material and must be incorporated into all approved courses. However, for example, it is not expected that all types of traction splints will be taught. Rather, it is appropriate to teach only the type that is commonly used in the geographic area where the course is being conducted.
Optional skill stations may be taught, but are not required. These include:

- Digital Intubation
- Transillumination - Lighted Stylet
- Translaryngeal Jet Ventilation
- Pharyngotracheal Lumen Airway
- Esophageal Tracheal Combitube
- King LTD Airway
- Laryngeal Mask Airway (LMA)
- Adult Intraosseous Infusion
- Rapid Sequence Intubation (RSI)

At the completion of either an advanced or a basic ITLS provider course, students will receive an Instructor Potential (IP), Provider (P), or Incomplete (Inc.) rating.

- IP 84 percent (84%) or greater on the ITLS written examination, and a good or excellent on the patient assessment practical testing station.
- P 74 percent (74%) or greater on the ITLS written examination, and an adequate, and a good, or excellent on the patient assessment practical testing station.
- Inc. Students who do not meet the criteria for successful completion will receive an incomplete. See the ITLS Retest Guidelines.

L. ITLS Pediatric Course - Core versus Optional Material

For the Pediatric Trauma Life Support provider course, core lecture topics include the following:

- The Injured Child-Families and Child Development
- Assessment of the Pediatric Trauma Patient
- Head and Spinal Trauma
- Chest and Abdominal Trauma
- Special Considerations in Pediatric Trauma

Core skill stations, for the Pediatric Trauma Life Support provider course, include:

- Pediatric Patient Assessment Skill Station
• Spinal Immobilization
• Airway Management
• Fluid Resuscitation

* Basic provider students are only responsible for the information in these skill stations to the basic provider level. If the students prefer to attend and participate in advanced information and skill sessions, they should be encouraged to do so. This will foster a better team approach to trauma care in the pediatric patient.

M. Requirements for a Pediatric Trauma Life Support CMD

In order for a physician to serve as the Course Medical Director for a Pediatric Trauma Life Support Course, they must have training and experience in trauma care. It is recommended that the Pediatric Trauma Life Support Course Medical Director (CMD) also have training and experience in the medical treatment of children. Ideally, they should be certified as a Pediatric Trauma Life Support instructor. It is also helpful if they are a local physician, as they are better able to appropriately integrate the material into the local pre-hospital and emergency department systems. A Pediatric Trauma Life Support physician instructor is best prepared to present the material effectively in the manner in which it was designed.

The mission of the ITLS Mid-Atlantic Program is to improve care of the trauma patient in the pre-hospital environment as well as provide for appropriate coordination of the continuum of care through the hospital environment. This is best achieved by having a good knowledge of the emergency department and its staff. Involving a physician in ITLS courses that has a background in emergency medicine or is proficient in trauma care improves the quality of our courses. It is recommended that you should involve a physician with the above qualities in your course whenever possible. In the absence of a qualified physician, it is mandatory that the Affiliate Faculty Member be present for the entire course and manage course questions and quality to the highest standards.

If an instructor is not present at the allotted time, the Pediatric Trauma Life Support CMD should be prepared to present the information. If questions arise concerning grading, the vote of the majority of the faculty will prevail. The Pediatric Trauma Life Support CMD will vote only in the case of a tie.

Teamwork and communication are the keys to a successful Pediatric Trauma Life Support course. The CMD and the Course Coordinator must have a smooth working relationship and open communication.
N. ITLS Access Course

The ITLS Access course is of such a technical nature that there are inherent dangers associated with it. These dangers include, but are not limited to, unstable vehicles, sharp metal edges, glass, gasoline and other dangerous fluids found in and around vehicles, and other environmental dangers. The ITLS Access Course Coordinator must take these dangers into account, while conducting this course. Also, there are many tools and items of personal protection that must be used in this course. Before a course can be conducted, an immense amount of preparation is required. Due to the dangers and preparations prior to the course, the ITLS Mid-Atlantic Office must be consulted for guidance before this course can be conducted. The ITLS Mid-Atlantic Office will provide guidance and recommendations to make this course as safe as possible.

O. The Basics of Conducting an ITLS Course

1. Health care professionals may be utilized to teach portions of an ITLS course. Up to 25% of the course faculty members are not required to be ITLS certified, but they must teach current ITLS information.

2. All courses must be taught using the current editions of ITLS manuals.

3. Only currently certified ITLS instructors may conduct the patient assessment practical teaching and evaluation portions of the course.

4. At least one certified ITLS instructor must be present at each patient assessment station.

5. The Course Coordinator must submit a request via the Course Management System (CMS) at least fifteen days prior to the course. The Course Coordinator must identify the Course Medical Director and Affiliate Faculty Member at that time. Additional faculty members can be added at the end of the course.

6. For guidance throughout the planning, conducting, and finalizing the ITLS course, assistance can be obtained by contacting the ITLS Mid-Atlantic Chapter Coordinator(s) or a designated ITLS Mid-Atlantic Affiliate Faculty Member.

7. Upon completion of the course, the Course Coordinator will completed student and faculty rosters in the CMS. The Course Coordinator will also submit assessment fees of:

   o $40.00/per student

Payment must be may submitted be one of the following:

> **One** check, money order or cashier’s check in the amount of $40.00/per person payable to WVACEP/ITLS

> **Via** the PayPal link on the ITLS Mid-Atlantic web site.
Mail checks to: WVACEP/ITLS
2000 Eoff Street
Wheeling, WV 26003

8. The Affiliate Faculty will submit electronically to the Chapter Coordinator the Affiliate Faculty Report and new instructor monitoring forms if applicable.

P. Continuing Education Credit
A. All ITLS Courses are approved by the Commission of Accreditation for Pre-Hospital Continuing Education (CAPCE).

B. Teaching ITLS qualified for Category II CME on an hour-for-hour basis for Physicians

C. ITLS is approved for recertification credits by the National Registry of EMT’s

D. ITLS Courses are approved by the District of Columbia, Virginia and West Virginia offices of EMS. Contact the Chapter Coordinator(s) for state specific reporting requirements.

Q. Certification Cards
West Virginia ACEP will not be responsible for lost or incorrect cards due to misinformation entered into the Course Management System. A $15.00 fee will be charged to cover the cost of replacing lost cards.

VI. ADMINISTRATIVE CONSIDERATIONS

A. ITLS Mid-Atlantic Retest Policy
Students who do not successfully complete an ITLS course will receive an “incomplete,” rather than a fail. This will encourage students to attend future courses, and learn the additional material to obtain a card, and more importantly, to be better prepared to provide adequate trauma patient care.

1. Students who have below a 74% on the written and an inadequate patient assessment must repeat the entire course, and pay all required fees to appear on the official course roster for the second course.

2. Students who have below a 74% on the written, but pass the patient assessment station must repeat the lectures and written exam.*

3. Students who pass the written exam (74% or greater) and receive an “inadequate” on the patient assessment station, must repeat all of the teaching and testing skill stations.*
*Students that receive an Incomplete at an ITLS provider course may once repeat the lectures and written exam portion of the course, or the teaching and testing skill stations portion of the course, to be eligible for retesting. Retesting must be completed within six (6) months of the date of the original course. Course participant fees will not be required to repeat a portion of the ITLS provider course, and the student’s names will not be placed on the official course roster for the second course. The Affiliate Faculty Member for the second course will forward documentation of the student’s performance to the ITLS Mid-Atlantic Office to be placed in the original course file. If the student does not successfully complete the retest, they must repeat the entire course and pay all required fees.

B. **ITLS Provider Reciprocity**

The ITLS Mid-Atlantic Chapter will grant reciprocal certification to ITLS providers from other Chapters for the length of certification on the cards from their home Chapter. In order to recertify candidates must successfully complete an ITLS Mid-Atlantic course.

C. **ITLS Instructor Reciprocity**

The ITLS Mid-Atlantic Chapter will grant reciprocal certification to ITLS instructors from other chapters for the length of certification on the cards from their home chapter. However, instructors requesting ITLS Mid-Atlantic instructor certification must apply in writing to the ITLS Mid-Atlantic Office. This letter of application must include the instructor’s past activities regarding ITLS instruction, and a letter confirming the activity from his or her former chapter Medical Director. Once approved by the ITLS Mid-Atlantic Office, such instructors will be briefed and monitored by an Affiliate Faculty Member at the first course they attend. In order to recertify their ITLS Mid-Atlantic instructor status, such instructors must complete the requirements for recertification as outlined in this manual.

D. **ITLS Affiliate Faculty Reciprocity**

The ITLS Mid-Atlantic Chapter will not grant reciprocal certification at the Affiliate Faculty level. ITLS Mid-Atlantic Affiliate Faculty status may only be achieved through the process outlined.

E. **ITLS Bridge Course Policy**

In an effort to facilitate the process by which certified trauma instructors may become ITLS instructors, ITLS has developed a "bridge" course. The following policy outlines the course requirements.

This course is open to any currently certified PHTLS or ATLS Instructor who wishes to become an ITLS Instructor. An ITLS faculty member must conduct the course.

Rationale: This course has been developed to facilitate the process by which certified trauma instructors may become certified as ITLS Instructors. The course assumes that the candidate is familiar with basic instructional methodology and the skills of ITLS. Successful completion certifies the candidate as an ITLS Instructor candidate.
Necessary Prerequisites: The prerequisite for registering in the Bridge Course is current PHTLS or ATLS (or similar trauma training program) Instructor Certification.

Certified By: Following completion of the Bridge Course, the candidate is classified as an "Instructor Candidate." In order to become certified as an ITLS Instructor, the candidate must be recommended for certification by a faculty member who monitors the candidate teaching during an ITLS Provider Course. Monitoring must be within 12 months of the bridge course and include teaching a lecture and a skill station. An extension may be granted on the 12 months if considered appropriate by the chapter medical director.

Certified For Four (4) years

Recertification: In order to be recertified as an ITLS Instructor, the individual must teach and be monitored in at least one ITLS course (Basic or Advanced) per year for the three years of certification. Instructor Updates may be required as deemed necessary by the chapter.

Recommended Course Length: One (1) Day

BRIDGE COURSE OUTLINE

I. Introduction

A. History of ITLS
   1. Why and How
   2. Course Philosophy
   3. Educational Philosophy
      a. Educational Flexibility/Academic Freedom
      b. Emphasis on ITLS Survey

B. ITLS Program Structure
   1. Provider
      a. Advanced
      b. Basic
   2. Instructors
   3. Affiliate Faculty
   4. ITLS Chapter Committee
   5. ITLS

II. ITLS Program Administration
A. Provider course schedule review
B. Provider course coordinator
C. Administrative guidelines
   1. Books
   2. Slides
   3. Pre Course Paperwork
   4. Course Fees
   5. Post Course Paperwork

III. Student Evaluations

A. How to Conduct Patient Scenario Teaching and Testing Stations
   1. Scenarios
   2. Paperwork
   3. Pass/Retest/Fail Criteria
B. Mock Scenarios

IV. Completion/Recertification Requirements

A. Monitoring for Initial Certification
B. Required Teaching Activity
C. Monitoring for Recertification

V. Wrap-Up

F. Records Retention Policy

Because ITLS Mid-Atlantic utilizes the Course Management System (CMS) online, hard copy records are not required. Course Coordinators must maintain records of student performance (written examination answer sheets and practical skill assessment scoring forms) for a minimum period of 2 years. Course coordinators may keep paper copies of post-tests, patient assessment score sheets, and other course documents, or electronic (scanned) documents instead.

All records stored in the CMS remain in the CMS database permanently; deletions or modifications related to student or instructor certification may be made at the discretion of the Chapter Coordinator.

G. Course Conduct Requirements

All ITLS Mid-Atlantic courses are to be conducted in an organized, professional manner that reflects the public safety profession positively. Students who become disruptive will be asked to leave the course by the Course Coordinator or Affiliate Faculty. Students who are dismissed from a course for inappropriate conduct will not be eligible to return to the class and must sign up for another ITLS class. Students who have a pattern of disruptiveness will be not be permitted to enroll in any ITLS Mid-Atlantic courses.
H.  **Student Confidentiality**
Confidentiality with respect to student performance shall be maintained at all times.

I.  **ITLS Disability Policy**
In accordance with ITLS policy, if a student cannot complete the patient assessment portion of an ITLS course due to a physical disability, he or she should receive a certificate of continuing education or audit, but should not receive a course certification card. Certificate of completion are issued by WVACEP.

J  **Printing of Course Completion Cards**
Upon arrival of the Chapter Coordinator(s), Course Coordinators may electronically print course completion cards on white card stock and distribute to students upon successful completion of all course requirements. Course Coordinators who do not pay course fees in a timely manner may have their card printing privilege suspended or revoked at the discretion of the Chapter Coordinator(s)

C. ITLS Mid-Atlantic Sample Letter to Course Registrants

Date

Dear ITLS Mid-Atlantic Course Participant:

Welcome to the Advanced, Basic, Combined, or Pediatric International Trauma Life Support Course to be held (date) ______________ at ________________________________, (address) ________________________.

Enclosed you will find the following materials:

- ITLS provider textbook
- Pretest, answer sheet and key
- Agenda
- Map with directions to the course

We suggest you wear casual clothes. Several skill stations require floor work with various types of equipment.

The (Pediatric) International Trauma Life Support Course is an intense, two-day (one day for Pediatric) learning experience, which consists of didactic presentations, skill stations, a written examination and patient assessment testing. It is extremely important that you be familiar with the text and be well prepared prior to the course. Take the pretest after you have studied the text and check your responses with the answer key provided.

If you have any questions, please contact (course coordinator) __________________ at (phone number) __________________.

Sincerely,

Course Director

Enclosures
D. ITLS Mid-Atlantic Sample - Letter to Instructors

TO: ITLS Instructors

FROM: Course Director

RE: Assignments - Course Location and Date

DATE:

Thank you for agreeing to serve as an instructor at the ADVANCED, BASIC, COMBINED, OR PEDIATRIC) ITLS COURSE to be held (date) ____________________, (at) ____________________, (address) ____________________.

Agendas indicating the assignment of lectures, skill stations and patient assessment testing are enclosed. Your assignments are circled in red on the agendas.

If you are lecturing, we have enclosed the PowerPoint slides for your topic. They should be returned to (coordinator) __________________ immediately following your lecture.

Please review the Instructor's Guide for station objectives and important points when preparing for the teaching stations. For patient evaluation and testing, we have enclosed a copy of your assigned scenario. Instructors are responsible for orienting the models to their roles prior to the testing session.

Enclosed are:

● Map indicating the general area of the hospital
● Faculty informational material
● Scenario for testing station
● Course agendas
● PowerPoint Slides (if lecturing)

If you have any questions, please contact (course coordinator) __________________ at (phone number) ________________.

Sincerely,

Course Director

F. ITLS Mid-Atlantic Instructor Reciprocity Form

Name: ________________________________

Address: ________________________________________________________________

City: __________________ State: _______ Zip: __________________________

Home Phone: ______________ Work Phone: ______________

Occupation: EMT Paramedic RN PA Physician

Location of Instructor Course: ______________________________________________

Medical Director: ________________________________________________________

Date Instructor Course was conducted: _________________________________

Please include a copy of your occupational license, current ITLS provider and instructor certification cards, resume or curriculum vitae, as well as a letter of verification from your previous Chapter Coordinator. The Chapter Coordinator may request an interview if any questions or discrepancies arise. It may be necessary for the candidate to be monitored by an Affiliate Faculty Member while teaching one lecture and one skill station. The Affiliate Faculty Member should forward a recommendation in writing to the Chapter Coordinator. The ITLS Committee will review all applications for reciprocity and reserves the right to overturn the approval by the Chapter Coordinator.

See the ITLS Mid-Atlantic Policy and Procedure Manual, “Section VI. Administrative Considerations, Sections B, C, and D.”
G.  ITLS Mid-Atlantic Provider Course Evaluation Form

Name (Optional)

I am a:  First Responder                  Practical Nurse                  Physician Assistant
EMT-B                                      Registered Nurse                  Physician (MD or DO)
EMT-I                                      EMT-P
Other (explain)

For the following, please circle the number that best describes your opinion of this course in relationship to each of the following issues:

1 = Poor   2 = Unsatisfactory   3 = Good  4 = Excellent

GENERAL:
1. Location of this course in relation to travel time and accessibility?  1  2  3  4
2. Location of this course in relation to adequate space for lecture and skill stations?  1  2  3  4
3. The time allotted to cover the didactic material?  1  2  3  4
4. The time allotted to cover the practical skills?  1  2  3  4
5. Your level of skill and comfort in the treatment of a trauma patient prior to taking this course?  1  2  3  4
6. Your level of skill and comfort in the treatment of a trauma patient after taking this course?  1  2  3  4

LECTURES/Demonstrations:

Instructor(s)
1. Mechanism of Injury
2. Assessment & Initial Management
3. Initial Airway Management
4. Thoracic Trauma
5. Shock
6. Spinal Trauma
7. Head Trauma
8. Extremity Trauma
